What if my child is remote or absent on a distribution day?

If your child is remote or otherwise unable to be on campus for test kit distribution, you or a designated proxy may collect a testing kit between 8am-3pm on distribution day. Please contact the school office to make arrangements.

If your child will not be in school for distribution day for reasons other than illness, please make arrangements ahead of time or on the day of distribution to pick up your child’s test kit.
