

The Student Difference

Gateway students come to our school with distinct academic, language, and social needs. Concurrently, they are young people who are growing and developing and deserve a rich experience beyond the academic program. We recognize that the social-emotional component is critical and must go hand in hand with an academic component in order to fully enrich the lives of our students. At the same time, we are continuing to expand opportunities for students to engage in their passions and interests.

Objectives

01 Leadership Opportunities

Gateway always strives to find more leadership opportunities for our students - both inside and outside of the school - to help them to build confidence and social skills.

04 Life After Gateway

Our *Life After Gateway* event has allowed our current students and their families to envision their lives after graduation. We will continue to enhance that experience to make meaningful connections for our current students and increased engagement for our graduates.

02 LS and MS Distinction

Gateway will invest in age-specific campus space and programs that help the school to better differentiate between the Lower and Middle School experiences for students.

05 Student Capstones

Gateway believes that capstone projects at key milestones and grade levels enable students to demonstrate and celebrate the culmination of their learning.

03 Expanded Enrichment

Gateway is further expanding programs for students to pursue athletics, music, and the arts. This includes developing partnerships with outside organizations that can bring these programs to our students on campus.

Goal 2

The Student Difference
